

The diagram shows a light blue circular disc with a dark purple outer border and a white central hole. A red crosshair is centered on the disc, with its lines extending to the outer edge. Small red crosshairs are also located at the top, bottom, and left edges of the disc. Below the disc, two horizontal dimension lines are shown. The top one is labeled 'Measures in millimeters' and '≤ 117', indicating the diameter of the disc. The bottom one is labeled '120', indicating the diameter of the central hole.

All bleed areas will be adjusted by our staff based on media which is selected.

Measures in millimeters

≤ 117

120
